

SERVICE

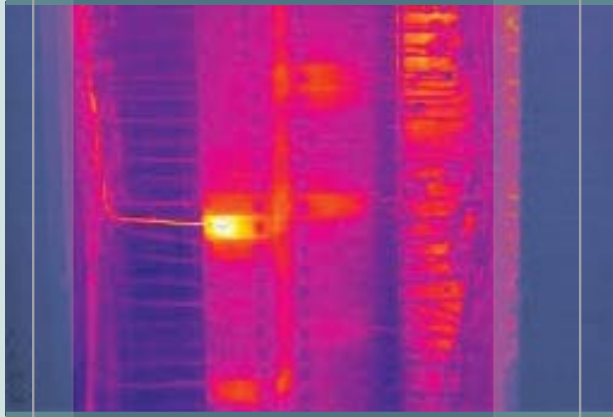

NEAL ELECTRIC

As new projects are completed, a new demand arises: service. The Neal Electric Service group troubleshoots and maintains new installations, remodels, design/build projects, infrared testing, and lighting systems. Whether projects require 1 day or 1 month to support, we provide knowledgeable, trained electrical technicians to efficiently and effectively service the job.

CORE CAPABILITIES

Expertise for Individual Customer Needs

- Our expert technicians understand the spectrum of low- to high-voltage installations
 - Trained high-voltage electricians adeptly service 5 kV to 15 kV systems
- We consistently hire and train personnel specializing in emerging areas (eg, infrared, industrial, special projects, tele/data)
- From design/build to monthly or yearly maintenance contracts, Neal Electric provides comprehensive electrical service and expertise at a minimal cost to the client
- Extensive equipment and in-house materials/supplies offering everything necessary to perform emergency calls, including emergency generators to get your company back in service quickly.
- Monthly lighting maintenance service including bucket trucks and cranes to replace lamps and repair or replace light poles

EQUIPPED FOR ON-DEMAND SERVICE

Our workforce offerings:

- 27 service trucks fully equipped to handle most emergencies and next-day service calls
- 7 trucks on the road for industrial needs
- 6 trucks to service the tele/data market
- 2 trucks dedicated to the high-voltage market
- Bucket trucks to provide lighting maintenance
